

ABSTRACT OF THE DISCLOSURE

- 5 A multilayer cover for a pool containing water comprising
- (a) an uppermost layer having a solar heat reflective material; and
 - (b) a lower layer having a first thermoplastic film
 - (i) having a plurality of portions wherein each of the portions defines a cavity; and
 - (ii) is in sealing engagement with the uppermost layer to provide a plurality of closed
- 10 cavities; wherein the uppermost layer provides an effective reflective barrier to the ingress of solar radiation through the cover to the water in the pool to prevent or reduce the rate of the water temperature increase.
